## They Stand Alone.

Standing out in bold relief, all alone, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, overworked, dispirited, nervous "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections, whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients containing—printed in English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their merit. They cannot be classed as patients' secret medicines for they are neither being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines. They being wholly compounded of glyceric extracts of the roots of native American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. E. V. Pierce can be consulted by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

## YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that is "in style," but the modern hat for men has lots to answer for.

Headaches are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are busy at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newcomb's Headache Cure. One bottle will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send ten cents in stamps for sample to The Herpicide Co., 219 E. St., Leadbeater & Sons, Special Agents.

## PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablets—cures blood pressure away from pain centers. It acts like a magnet, drawing the blood gently, though safely, it safely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are restless, jittery, nervous, it's blood congestion—blood pressure. That surely is a certainty for Dr. Shoop's Headache Tablets stop it in 30 minutes, and the tablets simply distribute the congested blood.

Brush your finger, and doesn't it get red, and swell, and pain you? You find it where pain is always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend.

## THE RAILROAD SITUATION.

The conference on the railroad situation held at the White House last night lasted for nearly three hours. Those present, in addition to the President, were Mr. Cortelyou, Secretary of the Treasury; Mr. Garfield, Secretary of the Interior; Mr. Bacon, Assistant Secretary of State, and Chairman Knapp, and Messrs. Lane, Clements, Clark, and Harlan, and Special Counsel Kellogg, of the Interstate Commerce Commission.

The present railroad situation was considered and discussed from every angle. No conclusion was reached as to how or when the President should sound a note that would be reassuring in its effect upon the transporting world. The President again made it clear that he fully appreciates the seriousness of the tendencies toward demonstration in the railroad business and of his desire to do or say something that would restore the equilibrium. The principal obstacle to action on the part of the President seems to lie in the certainty that any public utterance or move on his part in the matter might be misinterpreted.

By frequent consultation with officials and others in whom he has confidence he is showing an earnest effort to ascertain what is possible to be done in the present state of affairs. It is stated on good authority that no concrete plan was proposed last night that the President might utilize in taking a course of action calculated to bring order out of what appears to be the chaotic condition of affairs that confronts the good as well as the bad railroads. It is understood that the proposal made by Mr. Schiff that the railroad men and the Interstate Commerce Commission should meet and agree upon legislation that the President should recommend to Congress was not touched upon at all.

The visit of the delegation representing the Illinois Manufacturers' Association yesterday morning was important in that its members pointed for the benefit of the President a very gloomy picture of present business conditions. They spoke from the standpoint of their own experience, making it plain that unless some action was taken soon to put an end to the present uncertainty, the unexampled prosperity of the country might give way to unexampled hard times.

## Open Shop on Isthmus.

The President has served notice that the open shop principle must prevail in the machine shops on the isthmus. While the reports of a strike among the workmen on the canal zone are denied at the office of the canal commission, it is admitted that agitators are constantly turning up among the men there and endeavoring to unionize them and enforce the closed shop rule. Owing to the firm stand which the President has taken in the matter this has thus far been prevented, but at the same time the labor situation is not entirely satisfactory to those who have to deal with canal matters.

The steam shovel men, who are at present making the demands for increased wages, are organized, and once before have been in a position to force the government to increase their pay. Originally the pay of the engineers employed on the steam shovels was \$180 per month, which is far in excess of the average rate of wages paid them in the States, and \$60 more a month than their union scale. In addition, they are allowed housing, fuel, and light.

At the present time the engineers' wages are \$210, an increase of \$25 a month having been made several months ago. They are seeking an advance to \$300 a month. Cranesmen are now paid \$185 a month and want a raise to \$250 a month. Firemen get \$83.33 a month and are asking for \$110.

The steam shovel men are employed eight hours a day, with pay and a half for overtime, but frequently, it is said, they are not obliged to work a full day of eight hours, but no deduction is made in their pay on account of a short day.

## A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough cure, the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed at E. S. Leadbeater & Sons' drug store, 50c and \$1. Trial bottle free.

## Japan's Policy.

Mail advice received in San Francisco from Tokio state that Viscount Hayashi, foreign minister of Japan, in a speech before the Japanese Diet, in answer to questions of members regarding the government's attitude concerning the refusal of the San Francisco authorities to admit Japanese to the public schools, said:

"The American government, which throughout had shown profound sympathy with the Japanese nation, sent us a telegraphic expression of its regret at the occurrence before our protest had reached Washington. We considered that our proper course was to stand on one side and patiently await the development of affairs. In regard to the foreign suspicion of aggressive intentions on the part of Japan, the ideas can only be attributed to great ignorance of the conditions in this country. The military and

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It is nice even for the youngest child. Sold by E. S. naval proposals in the budget are of a kind merely to restore and reorganize the national forces, just as every other nation is doing. On behalf, not only of the government, but also of the nation, I beg to declare that Japan has no aggressive intentions whatever. As far as commerce is concerned, our policy may or may not be considered aggressive. We intend to push our interests to the front. We have the right possessed by all countries to peacefully compete with other nations, but we intend to firmly adhere to the principles of equal opportunity and the open door, in which we have the fullest belief."

## The Divorce Mill.

During working hours of court officials there is a divorce suit filed every two minutes and a divorce granted every three minutes in the United States, according to figures compiled by the Census Bureau. This has been the average for the past 20 years, and census officials say the average is increasing at an alarming rate.

For the 20-year period from 1887 to 1907 there were only 328,000 divorce suits filed in the country. For the 20-year period from 1907 to 1907 the number aggregates 1,400,000, or four times the number for the first period. However, the population also increased somewhat. Experts figure that for the 20-year period prior to 1887 there were 33 divorces for every 100,000 inhabitants, while for the 20-year period from 1887 to 1907 there were 70 divorces for every 100,000 population. Decrees are issued in about two-thirds of the suits filed.
